Ontario conservative members have requested Macdonald, of Winnipeg, not to retire from public life, offering him an Ontario seat, if the representation of Winnipeg is too onerous. He has promised to consider the matter.

Seventeen members of the Grand Trunk boating club, of Montreal, were returning from an excursion in a canoe when, near Point St. Charles, it capsized and six young men were drowned. Two other young men were drowned in the same manner near Nun's Island.

Rev. G. A. Youmans, Presbyterian minister of Warton, Ont., hoisted the stars and stripes above the union Jack on Dominion Day. A crowd of angry citizens gathered and requested its removal. GENERAL NEWS.

The number of trains on the Intercolonial has been reduced to save expense.

A man named Franklin or Lyman has been arrested in Calgary on a charge of assaulting a twelve year old girl.

The Manitoba legislature was dissolved on June 27th. Nominations on July 16th and elections on July 23rd.

On June 11th John Jackson of Horse Shoe lake southeast of Red Deer was accidentally shot and killed by Samuel Payne. The coroner's jury exonerated Payne.

Tracklaying has been resumed on the southern extension of the C. & E. and the graders have nearly completed the dump to the new town site west of Macleod.

The Industrial World of Spokane, Oregon, organ of farmers alliance party, says: "We demand that our revenue law be so amended that all notes and all other evidences of credit be made taxable, and all notes not bearing the assessors stamp shall be null and void." Taxation reform along this line is what is wanted.

It may not be out of place to mention that the first reply received from Ottawa, in regard to the land office trouble, was from N. F. Davin, M. P. for Western Assiniboia, and that it conveyed the assurance that the rights of Edmonton would be protected. It is also worthy of remark that D. W. Davis, M. P. for Alberta, is still to be heard from on this subject.

Calgary Herald: "Agent Rowe, of the Dominion Lands office, has been notified that the Calgary immigration shed will be turned over to him on July 1st. We understand that ex-immigrant agent Miquelon is going into business at Lacombe station on the C. & E." Before the immigration committee, at Ottawa recently, Mr. Burgess, of the interior department, said that the dismissal of immigration agents only applied to the eastern provinces and not to the Territories.

United States fisheries on the Great lakes of the St. Lawrence employ 107 steamers and nearly 4,000 other craft. During the past ten years \$2,000,000 worth of fish have been caught. When the Canadian fisheries of at least equal amount are added, the immense value of these fisheries is apparent. This furnishes a basis of comparison whereby an idea of the value of the fisheries of the Mackenzie may be arrived at. These lakes; Athabasca, Great Slave and Great Bear are at least equal as fishing grounds to Ontario, Erie and Huron.

Calgary Tribune: "Sir John Thompson's manner of treating the Edmonton trouble, as instanced in to-day's despatches from Ottawa, is unworthy of anyone laying the slightest claim to the name of legislator. Without knowing the circumstances, or hearing the story only of those who are interested in perverting the facts, the leader of the House of Commons characterizes the people who have prevented the removal of the office—and they constitute the majority, if not all, of the respectable and substantial citizens of Edmonton—as men who were desirous of making a disturbance. He further stated that there had been no intention of removing the office. His reference to the people of Edmonton was meant to mislead Mr. Laurier, who asked concerning the trouble. The truth of his latter statement can be judged by the fact that the officials were removing the furniture and records of the office when they were stopped. Sir John Thompson may be a clever politician, but he has yet to learn that in the long run it is better to tell the truth. It would be well for him and for all the leaders in the house to make themselves acquainted, at least in a slight degree, with this country. They would then know that for a considerable distance south of Edmonton is an Indian reserve, that the great majority of those having dealings with the land office live on the north side of the river, and that there are now in that district more than 300 patents just being issued. These people, were the land office removed, would all have to cross the river; yet for the benefit of a few speculators the government would not have hesitated to inconvenience a larger number of settlers, and at the same time sacrifice the interests of a whole town."

THANKS.

The newspapers generally are entitled to the thanks of the people of this town for the fair play they have given us through their columns during the land office trouble. So far as noticed not the first one has in any way attempted to take sides against us. We are particularly indebted to the Calgary papers, the Tribune and Herald, for the hearty way in which they have endorsed the cause of the people against the speculator. Being so near the scene of action as to be fully acquainted with the facts, an endorsement from them is specially welcome and important. A friend in need is a friend indeed, and the Calgary papers have certainly been our friends in this case. At the same time their friendship would have availed us little had we not first helped ourselves. It is as true now as ever that the Gods help those who help themselves.

DOMINION DAY.

The weather of Friday last was all that could be desired for a day of sport and pleasure. Thursday had been very hot. Clouds gathered on Thursday night, which threatened rain on Friday morning, and thereby kept many people living at a distance at home, but at the same time checked the heat of the sun, and made it much more pleasant for those who did venture. No rain fell and there was a light breeze all day giving both men and horses every opportunity to do their best. The crowd was probably larger than ever before seen at Edmonton, unless, perhaps, last year when the railroaders made up such a large portion. Good humor and good order prevailed, at least, until evening. The competition in all the events was keen, as the prizes were good, but very little money changed hands, a circumstance not to be regretted. In the foot racing Moosewa "The Moose" had it all his own way, as usual, although a celebrity had been brought from the Jasper House to down him on the mile. On the $\frac{1}{4}$ mile dash P. L. McNamara pushed him hard for three-quarters of the distance, but could not stand the pace all the way. It is said that both beat the $\frac{1}{4}$ mile record for the Northwest. The mile trot was hotly contested between seven competitors. Five heats were trotted, Coghlan's "Handful" came in first twice; Looby's "Paddy" and D. Dewan's "Club" first and second once each, and Carscaden's "Chub" first once. As time was short it was decided to divide the second prize between Paddy and Club rather than trot a sixth heat. Dewan's horse was very fast, but persisted in stopping dead at the $\frac{1}{4}$ mile every time, which, of course, threw him far behind. In the mile race, Frank Smith riding A. D. Osborne's "Daisy", was thrown by the horse falling while shying. The horse rolled over him leaving him senseless. He recovered, however, and was able to drive

home to Sturgeon river. This was the only accident of the day. Towards evening whiskey began to get in its work and there were several scuffles, but nothing serious occurred. Owing to regulations recently issued the police were not present to preserve order and the town did not provide any special constables. It speaks well for the place and people that so many could meet and part under such circumstances with no greater need of restraint. A "few people desirous of creating a disturbance" had every opportunity on that occasion, but the desire was lacking. The fruit and lemonade stalls did a thriving trade as usual on such occasions, and the lunch and tea served by the Methodist Ladies' Aid Society were well patronized, as well as the ice cream table and apron sale of the same society. MANITOBA CROPS.

The Manitoba crop report says regarding weather during seeding:

In answer to question put to correspondents "Was the weather during seeding time favorable for work and growth?" the answer, with very few exceptions was "favorable for work, but not for growth." During April, and in fact during the most of May, it was exceptionally cold. In the former month a severe storm made the ground very damp in some places, and seeding operations were considerably retarded. Seeding became general all over the province on the 19th April.

Since the first of June the weather has been all that could be desired for the growing crops. Warm with frequent showers—and the latest reports show they are doing well.

The following table gives the acreage under crop and the amount of fallowing and fall plowing done together with the figures for last year for purposes of comparison:

	1891.	1892.
Acreage under wheat.....	916,664	875,990
